

## Keeping Bulone clean

In an attempt to cut down on plastic and save where we can, we would like you to consider a couple of things while you are here.

**Water bottle Refills** – We offer water refill services at our restaurant. So if you already have a bottle you can just get it refilled instead of buying a new one, if you want to. Getting a refill is cheaper than buying a new bottle each time. Just ask at the restaurant!

**Rubbish disposal** – Please try to leave all rubbish and waste in the bins and baskets provided. There is so much plastic floating around in the Andaman sea from improper disposal on other islands and places and a lot of it ends up on our shore during the rainy season.

**Showers and water** – Please try to save on the water usage as best you can as this islands water reserves are very limited due to a small landmass.

**Toilet paper** – Like many places in Thailand the pipes are not designed for receiving toilet paper so please do not flush toilet paper as this will cause problems within the plumbing system.
